

A FAMILY ADVENTURE TO "THE DARK SIDE OF THE MOON."

The Early Show – UNPLUGGED 5:00 pm, Saturday 17 February 2024

"The look of excitement when kids experience live music always brings a smile. Their delight is infectious. They love it, the crowd loves it, parents and grandparents love it. Pure joy right?"

Join us for an extraordinary journey to Pittwater's Scotland Island. Take the ferry from Church Point and head to the island's mysterious north side where we invite you to sit back and relax while Pittwater's finest musicians perform a very special unplugged rendition of the classic album *"The Dark Side of the Moon."*

It's an inclusive performance designed for families, kids, and grandparents as a unique opportunity to revel in live music without excessive volume or strobe lighting.

Pittwater's *Flaming Doghouse Showband* have performed their widely acclaimed Pink Floyd show many times over the years, but this performance is sure to be a standout. Immerse yourself in the warmth of acoustic instruments and vocal harmonies, as this timeless music is handed to the next generation in a musical rite of passage your family will never forget.

The journey to Scotland Island departs from Church Point with the scheduled ferry at 4:30 pm transporting you to Tennis Wharf and the Moon Dance venue for the 5:00 pm show. The ferry ride back to Church Point after the show will get you there at about 7:00 pm.

Don't miss this unique musical adventure. Tickets from \$36.50 per adult (including up to two children).

Ferry tickets are purchased on board. Moon Dances are community events proudly organised by volunteers and supported by the Scotland Island Residents Association.

Seats are limited - be quick.
