In accordance with clause 13.2 (ii) of Council's Code of Meeting Practice, the meeting was adjourned at 8:07pm. The meeting resumed at 8:12pm with the same Councillors with the exception of Councillor Menano-Pires.

4.20 Mr Jack Tilburn asked the following question regarding Council's Street Lighting Committee

Question:

- A.
 - a) What role is carried out by Council's Street Lighting Committee?
 - b) Has it a Charter?
- B. Is it pro-active in investigating on adequate and satisfactory
 - a) Street lighting
 - b) Pavement lighting and
 - c) Walking paths and
 - d) Reserves etc?
- C.
 - a) Who is in charge and control of this Street Lighting Committee? and
 - b) How many staff employed? and
 - c) their qualifications etc?
- D. How much dollar funding did Council provide for the 2013 and 2014 financial years (July through June) for the Street Lighting Committee and also for
 - a) Yearly maintenance of existing capital works and
 - b) For actual improvement Capital Works approved by Council in the budget?
- E.
 - a) Does the Council employs a committee secretary and her duties and
 - b) Is the Committee a proactive one for better lighting in the LGA?
- F.
 - a) What capable methods does this committee undertake to uphold and upgrade modern and advance overall lighting standards for the 2014 current year NOT the 2000 year
 - b) And so do away with all pitch black and black holes environments

Answer:

The Deputy General Manager Environment provided the following response:

- A.
 - a) The Street Lighting Committee is not a formal Council appointed Committee but an internal operational group that investigates requests for street lighting improvements
 - b) There is no formal charter and its only role is to investigate street lighting requests.
- B. Street Lighting Committee only deals with lighting issues on the road network including pathways. It does not deal with walking paths on reserves as this is considered by Council's Parks, Reserves and Foreshores.

- C. The Street Lighting Committee is an informal committee under the Roads, Traffic and Waste Group. The staff dealing with street lighting investigations are the Traffic Engineers and occasionally staff from Road Assets Team. This only forms part of their role and responsibility. No formal qualifications are required for the role in Council as street lighting designs are generally carried out by Ausgrid.

There is no specific funding allocation to the Street Lighting Committee. Street Lighting design costs for 2013/2014 were approximately \$20,000 which were generally carried out by Ausgrid for Council.

- D. a) Council's Street lighting budget is about \$2,625,000.00 and Council receives a subsidy of \$370,000 from Roads and Maritime Services to cover costs for traffic route lighting. Put of this budget we pay for electricity and associated network maintenance costs.
- b) Large capital expenditure projects are specifically funded and would be listed in the Community Strategic Plan. Minor improvements that arise from time to time may not incur an up-front capital expenditure where the works are undertaken by Ausgrid. The work would result in an increase in the street lighting charges for electricity and maintenance once the new installation is completed by Ausgrid.
- E. a) There is no position entitled Secretary of the Street Lighting Committee. A member of the Roads Traffic and Waste Administration team provides administrative support to the officers of the Traffic and Road Safety team. This officer also undertakes many other administrative duties for that group, which includes supporting the Warringah Traffic Committee.
- b) The matter of better lighting in the LGA is a Council-wide responsibility which involves Strategic Planning, RTW which as indicated mainly deals with requests from residents.

Council is proactive in relation to Street Lighting and is a member of the Street Lighting Improvement program, which is made up of a number of Councils and is working with Ausgrid to advance technologies and improvements to lighting infrastructure.

Council undertakes and investigates issues with street lighting. Council also reviews lighting in major capital works projects such as Dee Why Town Centre.

Councillor Menano-Pires returned to the chamber at 8:16pm

4.21 Mr Brian Halstead asked the following question regarding Corporate Support Expenses.**Question:**

The corporate support expenses budget is almost \$40 million which is greater than 50% of the rate revenue of the Council. It is now planned in the budget this year to increase these expenses by around 5% when the rates are increasing 3%.

This budget would clearly be made of up a number of activities like IT, marketing, communication, building costs, interest, finance and general management.

In the interests of openness and transparency on expenditure of 50% of the rates my question is in four parts:

- A. Could the Council provide in the quarterly budget review, details of how these activity elements of corporate support are tracking and likewise in the budget process show the split for the next four years across the activities?
- B. Could the Council always provide the previous year's actual expenditure in both the quarterly review and budget in order that growth can be tracked against last year.
- C. Could the Council ask the auditors to report in their budget review on the methodology of the internal charges and allocations of the \$20 million out of this corporate support budget to other costs areas? If not why not?
- D. Could the Council report in the budget process if there are any changes in the methodology of internal charges and allocations out of corporate support to other budgets.

Answer:

The Chief Financial Officer provided the following response:

- A. Individual commentaries are provided for each of Council's 16 Services of which Corporate Support is one. This commentary is detailed in terms of both actual and forecast performance where a significant variance occurs.

Significant detail is already provided by the analysis of the 16 Services and a further breakdown would not add to the quality or meaningfulness of the information.
- B. Council's draft and final budgets are prepared before comparative information is available for the previous financial year. For this reason Council provides a comparison to the projected position from the previous year's Community Strategic Plan which provides a more than adequate point of comparison. Additionally Council also now provides historical information as part its commentary to the Annual Financial Statements from which growth can be identified.

The provision of previous years comparatives within quarterly reviews are likely to lead to a need for a significant increase in the level of commentary to explain year on year timing differences which would be unlikely to add to the quality or meaningfulness of the information.
- C. The Auditors have concluded in their Assurance Report that the Budget has been appropriately prepared based on sound procedures and on a basis consistent with the accounting policies adopted in Council's audited financial reports.

They already perform a range of procedures including test checking calculations and the application of assumptions incorporated in the Budget and to specifically report on individual elements of the budget be unlikely to add to the quality or meaningfulness of their report.

- D. Council recognises the need to report changes in methodology of any aspect of the budget process including those relating to internal charges and allocations and would do this as a matter of course.

CARRIED**ITEMS RESOLVED BY EXCEPTION:****5.2 MAYORAL MINUTE NO 12/2014 - COMMUNITY DEMAND FOR HOUSING OPTIONS WITH THE CONSTRUCTION OF THE NORTHERN BEACHES HOSPITAL - FRENCHS FOREST AND FORESTVILLE****BACKGROUND**

The State Government has moved quickly into the final phases of the biggest infrastructure projects on the Northern Beaches for decades. The new Hospital has begun the first phase of construction with site preparation, clearing and services work ahead of the announcement at the end of the year of the successful tenderer.

The Roads and Maritime Services have announced the road upgrades in two stages and is currently working through the proposal through direct consultation with the community/stakeholders/ Council. Transport NSW is also being asked to respond to the challenges for additional bus services that will be required.

Many people living alongside, opposite or even further down towards the Roseville Bridge will be directly affected by this development. At this point in time, the changes proposed for the Starkey Street/ Warringah Road, Forestville are not yet known however they have been discussed at various public forums as being quite substantial.

Council has in the past prepared a Housing Strategy which is available but is not in a prominent position on Council's website. It is timely now to discuss the future housing options around the Hospital and Road Upgrades from Frenchs Forest to Forestville. This document is a good starting point for that discussion and should be promoted as that, a starting point.

Council has commenced planning for the precinct immediately around the hospital and wrote to all residents and businesses in the study area in early June advising of the commencement of the project. Community and stakeholder engagement opportunities are planned for October and November. These will provide information about the scope of the project and will seek input about the community vision for the area and the issues that need to be addressed. Engagement will

include workshops to assist the development of structure plan options. It is anticipated that by February 2015, exhibition of options and development of a preferred option will occur. I now seek that those potentially affected as outlined above in Frenchs Forest and Forestville, be notified directly and be encouraged to participate in the Precinct Structure Plan.

Recently, a Development Application for Seniors Living in Bernie Ave, Forestville has been approved for 12 units on what was previously three blocks of land in a cul-de-sac. Change is inevitable and the demand for downsizing and affordability is well recognised. Our recent forum certainly highlighted this and so we need to plan more effectively for the future growth in our local community. I believe we need to do this by developing a complete strategy so it doesn't allow for ad-hoc seniors living developments to just pop-up in quiet streets and cul-de-sacs as they alone do not serve to meet the current and future needs of our community.

We need to provide a choice for existing residents (especially those directly impacted by the hospital and road upgrades) to have the option of staying or going yet the ability to still be able to afford to live in their chosen area. I have been approached by many residents/business owners seeking Council's position on our future plans for housing in Warringah now that the hospital and road works have been announced by the State Government.

Obviously, we want to see any changes incorporating clever, smart and interesting design concepts. Councillors may recall that Freshwater sort a specific DCP for the local area around the development of the shopping village. With this in mind, I seek Council's support for a Design Competition to be set up to engage the community and to ultimately complement any future changes that Council identifies in our planning. We have many talented, design and planning professionals in our local area who can help partner with us to create a new community in Frenchs Forest / Forestville area.

525/14 RESOLVED

Cr Regan / Cr Harrison

That Council:

- A. Write to residents in Frenchs Forest and Forestville who are directly affected by the Northern Beaches hospital plans to encourage them to participate in the Structure Planning process that Council is running.
- B. When the structure plan is adopted by Council that the Community be engaged in developing changes to Warringah's current Development Control Plan with the aim to incorporate flexibility for creativity and innovation to encourage better design in the future development of Warringah by undertaking a design competition.
- C. Identify possible funding sources to allow prize monies to be awarded such as existing operational funding or future unidentified surplus funding allocations?

RESOLVED BY EXCEPTION

5.4 MAYORAL MINUTE NO 14/2014 - EXPECTATIONS AND RESPONSIBILITIES IN REGARD TO BUILDING DEVELOPMENT SUCH AS FRAZER STREET, COLLAROY

BACKGROUND

Following the incident on Tuesday 19 August 2014 which saw the collapse of a driveway at a building site in Frazer Street, Collaroy, and Council immediately issued an Emergency Order to force the owner to carry out works to make the site safe.

There has been much debate within the community and in the media as to where the responsibility lies when situations such as this occur. I believe the public has unrealistic expectations of

Council's responsibilities and under the current system there is no clarity as to who is ultimately in charge of a site under development. It is easy to point the finger at local government but we must remember that we are governed by State Government legislation and ultimately, it is the land owner's responsibility to ensure the site is safe.

The concerns I have following this recent incident relate to the overall role and responsibilities of both Council and the Private Certifiers appointed in these circumstances. Council staff as I understand have issued the emergency order and have been working with the Private Certifier and other stakeholders in ensuring the site is safe and that appropriate action is undertaken. But who is ultimately responsible for ensuring the safe site. I would like Council to provide a report that outlines our actions and responsibilities in this case so the matter can be further considered by Council. I would also like Council staff to outline their suggestions to improve the development system we are currently working under.

I believe there needs to be absolute clarity of the roles of all the stakeholders including the builders, certifiers and Council and I think this is a very good example of how the system is currently flawed. The community also needs to know exactly where to go in such situations and who is responsible – the lines of accountability are vague to say the least.

This is an opportunity to highlight the concerns we have and raise these issues with the Building Professionals Board and the State Government to ensure there are more effective guidelines in relation to the powers and responsibilities of Councils, Private Certifiers, builders and all the stakeholders.

I understand such work can be undertaken within existing operational budgets.

526/14 RESOLVED***Cr Regan / Cr Harrison***

That Council staff:

- A. Provide a report to Council that outlines our actions and responsibilities in relation to the incident at Frazer Street, Collaroy prior to the actual incident on 19 August and our responsibilities moving forward.
- B. Provide recommendations on how to improve the building management system we are currently working within that can be considered by Councillors and communicated to the State Government.

5.3 MAYORAL MINUTE NO 13/2014 - VALE - MS PATRICIA 'PAT' BOYDELL

BACKGROUND

It was with a great sense of shock and sadness that I learnt last Wednesday of the sudden passing of Patricia (Pat) Boydell. Pat was a truly an outstanding individual and it is fitting that tonight, we as her Council, recognise her incredible contribution to our community.

Pat will be remembered for her boundless energy, her passion and her genuine commitment to help others in need. She was an active member of the community working with a wide range of groups including the Harbord Diggers Memorial Club, the Manly Community Centre, the Lone Parents Association, the Steering Committee Carers NSW (Northern Beaches Branch) and the Curl Curl Lagoon Committee, just to name but a few. But it was her incredible dedication and tireless efforts advocating for better mental health services, particularly here on the Northern Beaches, that she will be remembered most fondly for.

She was the President and Secretary of the Northern Beaches Mental Health Support Group for well over 20 years, arranging monthly meetings, writing newsletters and running education stalls to ensure people had access to information and support to assist them in dealing with the traumatic impact of mental health issues.

Her commitment to better mental health services saw her serve on the Board of the Schizophrenia

Fellowship NSW and she played an important role in the establishment and running of the wonderful Pioneer Clubhouse in Balgowlah. She raised much needed funding for local services and provided personal support to individuals in need. Pat never held back from lobbying politicians on mental health reform, taking any opportunity she could to promote this worthy cause.

I distinctly recall a moment on Australia Day 2011 when along with a number of other dedicated members of the Warringah community, Pat was named as an Outstanding Community Service Award. Recipients quietly came up to the stage one by one, collected their certificate, posed for the camera then exited stage left. But not Pat. Her name was called, she came up to the stage, asked if it was ok to say a few words, promptly took the microphone and spent 5 minutes advocating passionately for better mental health services for our community. That was Pat through and through. Never one to miss an opportunity and done so with respect to her whole audience.

I will miss seeing her at community events when she would offer her feedback and her views. I can honestly say I have learnt a great deal from her over the years, both about the important issues of mental health but also about our wonderful community here in Warringah.

Her work in mental health will not be forgotten and I hope it brings some comfort to her family to see the many wonderful letters and words of support offered up by everyone from the Premier to the individuals she spent so much time helping every day.

Pat was truly a remarkable and generous human being; she will always be remembered as an incredible advocate for the forgotten, and a greatly respected member of our community.

550/14 RESOLVED***Cr Regan***

That Council note the sad passing of Ms Patricia Boydell and that the Mayor write to Ms Boydell's family expressing the Council's condolences and gratitude for her tireless service and dedication to the community in particular in the area of Mental Health
