The NSW Department of Planning & Infrastructure, in partnership with Pittwater Council and UrbanGrowth are undertaking a precinct planning process for Ingleside.

Precinct planning investigates the development potential of an area, preparing it for sustainable urban development.

The planning process will take into account important aspects such as infrastructure, including roads & services, housing choices, economic development, community & lifestyle and environment & culture.

Your opinions will be an important part of the planning process. There will be several ways to have your say, including surveys, a community mapping tool and public meetings. If you supply your email address when submitting a comment or suggestion, we'll keep you updated on progress.
