Purpose of collection:	For Council to provide services to the community
Intended recipients:	Northern Beaches Council staff
Supply:	If you choose not to supply your personal information, it may result in Council being unable to provide the services you seek
Access/Correction:	Please contact Customer Service on 1300 434 434 to access or correct your personal information

Part 1: Applicant Details

Title	Mr	Mrs	Ms	Other	
Full Name (Company Representative)				Position	
Company Name				ABN/ACN	
Address					
Post Code			Suburb		
Phone			Alternate Number		
Email					

Part 2: Work Details

Park, Reserve or Sportsfield Name			
Reason for works or access over Council reserve			
Proposed Works Date and Duration			
Access Vehicle/Plant Description		Registration No(s)	
Number of staff/people expected to be on site during works			

Part 2: Work Details Cont.

Please provide a description of how you intend to access and undertake work on the land. This must also include details on machinery or vehicles required for access/works.		
A Dial before you dig enquiry is mandatory and the applicant is required to comply with the conditions set out on any DBYD notification.		
Has the Dial before you dig enquiry been received?	Yes	No

Part 3: Sketch of Reserve location and/or Proposed Pathway of Access

Please provide a sketch of the proposed pathway of access over community land or location of works. Please mark any private property being accessed including house numbers and include the location of vegetation, park infrastructure and any other public infrastructure that may be encountered or interfered with during access.		
Sketch of reserve and proposed pathway of access		

Part 4: Insurance

Name Of Insurance Company			
Public Liability Policy Number			
Period of Insurance	From		To
Limit of Liability (\$20,000,000)			

Part 5: Conditions

THE FOLLOWING CONDITIONS WILL APPLY TO WORKING ON OR ACCESS TO RESERVES:	
1.	That all work completed will be done to the required standard of applicable legislation (in particular Work Health and Safety Act 2011 and Work Health and Safety Regulation 2011), codes of practice, industry standards and manufacturers specification.
2.	A Dial before you dig enquiry is mandatory and the applicant is required to comply with the conditions set out on any DBYD notification.
3.	Where "high risk construction work" as defined in the Work Health and Safety Regulations 2011 is expected to be undertaken, that "safe work method statement(s)" and site specific risk assessment reports be submitted to Council before commencing works.
4.	That the safety of the general public and all persons engaged in works activities will be maintained at all times.
5.	Applicants must ensure safe pedestrian access is maintained and controlled for duration of approved access and any persons engaged in activities on community land in proximity to the path of access at the time of access are to be notified of access activities and proposed access pathway prior to any vehicular movements.
6.	A traffic management plan and traffic control devices are to be provided as required in accordance with AS1742.3-2009 and RMS Field Guides.
7.	Erosion and pollution control plan is required and measures are to be in place and fully maintained during the work.
8.	At close of each days activity, the work site must be left in a safe condition.
9.	The permit holder shall provide adequate safety barriers and warning signs, and where excavation is open overnight the applicant is to provide and maintain construction fencing to 1.8m.
10.	All vehicles used during access must be RMS registered and operated by an appropriately licensed operator.
11.	No occupation, access or works permitted outside the hours of 7.00am and 5.00pm Mon – Fri or public holidays.
12.	Any utility services damaged during access and works activities are to be immediately reported to the relevant authority.
13.	Noncompliance with conditions of approval or any activity contravening the Local Government Act 1993, the Local Government (General) Regulation 2005 or any other relevantly applicable legislation (including but not limited to the Work Health and Safety Act 2011 and the Work Health and Safety Regulations 2011) may be subject to regulatory/enforcement action (including penalty).

Part 6: Agreement

I hereby acknowledge that the above information is correct to the best of my knowledge and undertake to advise Council should there be any alterations or additions to the information supplied. I/we declare that all works will be provided as instructed and in accordance with the conditions listed above.

The following information has been developed to assist in the completion of application for Working on and Access to Reserves Permit for the undertaking of minor works and access to a reserve without direct Council supervision.

Principles and Basis for Management of Community Land

The consideration and assessment of requests for Working on and Access to Reserve and community land under care control and management of Council must be undertaken in accordance with the requirements of the Local Government Act 1993 and Local Government (General) Regulation 2005, in particular those sections relating to the management of community land.

Accordingly it is a requirement that community land be used and managed in accordance with section 35 of the Local Government Act 1993, namely:

- Division 1 of Part 2 of Chapter 6 of the Act
- The plan of management applying to the land
- Any law permitting the use of the land for a specified purpose or otherwise regulating the use of the land

In relation to the assessment, approval and management of Work on and Access to Reserves Permits this OMS will only consider application pertaining to community land categorised in the Act as:

- Sportsground
- Park
- General community use

Working on Reserves Permits will generally not be considered for community land categorised as:

- Natural area
 - (a) bushland,
 - (b) wetland,
 - (c) escarpment,
 - (d) watercourse,
 - (e) foreshore,
 - (f) a category prescribed by the regulations.
- Area of cultural significance

Access to and across these areas is generally not in keeping with the core objectives for management of these categories of community land and will only be considered in exceptional circumstances.

Within this framework of community land management, section 46 of the Local Government Act 1993 provides that:

(1) A lease, licence or other estate in respect of community land:

- (a) may be granted for the provision of public utilities and works associated with or ancillary to public utilities, or
 - (a1) may be granted for the purpose of providing pipes, conduits or other connections under the surface of the ground for the connection of premises adjoining the community land to a facility of the council or other public utility provider, or
- (b) may be granted, in accordance with an express authorisation in the plan of management and such provisions of the plan of management as apply to the granting of the lease, licence or other estate:
 - (i) for a purpose prescribed by subsection (4), or for a purpose prescribed by any of sections 36E to 36N as a core objective of the categorisation of the land concerned, or
 - (ii) for a purpose prescribed by the regulations, if the plan of management applies to several areas of community land, or
 - (iii) for a short-term, casual purpose prescribed by the regulations, or
 - (iv) for a residential purpose in relation to housing owned by the council, or
 - (v) (Repealed)

Principles and Basis for Management of Community Land Continued

(c) may be granted in order to allow a filming project to be carried out, whether or not the project is in accordance with the plan of management or is consistent with the core objectives of the categorisation of the land concerned, but may not otherwise be granted.

(2) Despite subsection (1), a lease, licence or other estate in respect of community land may be granted for a purpose mentioned in subsection (1) (b) only if the purpose for which it is granted is consistent with the core objectives, as prescribed in this part, of its categorisation.

(3) A council must not grant a lease or licence for a period (including any period for which the lease or licence could be renewed by the exercise of an option) exceeding 21 years.

(4) The following purposes are prescribed for the purposes of subsection (1) (b) (i):

(a) the provision of goods, services and facilities, and the carrying out of activities, appropriate to the current and future needs within the local community and of the wider public in relation to any of the following:

(i) public recreation,

(ii) the physical, cultural, social and intellectual welfare or development of persons,

(b) the provision of public roads.

(5) Purposes prescribed by subsection (4) in relation to the matters mentioned in subsection (4) (a) (ii) include, but are not limited to, maternity welfare centres, infant welfare centres, kindergartens, nurseries, child care centres, family day-care centres, surf life saving clubs, restaurants or refreshment kiosks.

(6) A plan of management is void to the extent that it purports to authorise the grant of a lease, licence or other estate in contravention of this section.

Additionally, clause 116 of the Local Government (General) Regulation 2005 states that:

(1) For the purposes of section 46 (1) (b) (iii) of the Act, the use or occupation of community land for the following events is prescribed as a purpose in respect of which a council may grant a licence in respect of community land on a short-term, casual basis:

(a) the playing of a musical instrument, or singing, for fee or reward,

(b) engaging in a trade or business,

(c) the playing of a lawful game or sport,

(d) the delivery of a public address,

(e) commercial photographic sessions,

(f) picnics and private celebrations such as weddings and family gatherings,

(g) filming sessions,

(h) the agistment of stock.

(2) However, the use or occupation of community land for events listed in subclause (1) is prescribed only if the use or occupation does not involve the erection of any building or structure of a permanent nature.

(3) For the purposes of section 46 (1) (b) (iii) of the Act, the use of any existing road or fire trail on community land:

(a) to transport building materials and equipment required in relation to building work that is to be, or is being, carried out on land adjoining the community land, or

(b) to remove waste that is consequential on such work, is prescribed as a short-term, casual purpose.

(4) For the purposes of section 46 (1) (b) (iii) of the Act, the use of any community land that does not have an existing road or fire trail:

(a) to transport building materials and equipment required in relation to building work that is to be, or is being, carried out on land adjoining the community land, or

(b) to remove waste that is consequential on such work, is prescribed as a short-term, casual purpose if such work is for a purpose referred to in section 46 (4) (a) (ii) of the Act.

(5) In this clause, existing road or fire trail means a road or a fire trail that was in existence on 1 January 2001 (the date on which the Local Government (General) Amendment (Community Land) Regulation 2000 commenced).

Principles and Basis for Management of Community Land Continued

Also of relevance is clause 117 of the Local Government (General) Regulation 2005, which exempts certain activities from the need to otherwise comply with the provisions (relating to public notification, etc) contained in section 47A of the Local Government Act 1993. Clause 117 of the Regulation is as follows:

- (1) Leases, licenses and other estates granted for the following purposes are exempt from the provisions of section 47A of the Act:
- (a) residential purposes, where the relevant community land has been developed for the purposes of housing owned by the council,
 - (b) the provision of pipes, conduits or other connections under the surface of the ground for the connection of premises adjoining the community land to a facility of the council or other public utility provider that is situated on the community land,
 - (c) use and occupation of the community land for events such as:
 - (i) a public performance (that is, a theatrical, musical or other entertainment for the amusement of the public),
 - (ii) the playing of a musical instrument, or singing, for fee or reward,
 - (iii) engaging in a trade or business,
 - (iv) playing of any lawful game or sport,
 - (v) delivering a public address,
 - (vi) conducting a commercial photographic session,
 - (vii) picnics and private celebrations such as weddings and family gatherings
 - (viii) filming,
 - (d) a purpose referred to in clause 116 (3) or (4).
- (2) However, the use or occupation of community land for events listed in subclause (1) (c) is exempt only if:
- (a) the use or occupation does not involve the erection of any building or structure of a permanent nature, and
 - (b) in the case of any use or occupation that occurs only once, it does not continue for more than 3 consecutive days, and
 - (c) in the case of any use or occupation that occurs more than once, each occurrence is for no more than 3 consecutive days, not including Saturday and Sunday, and the period from the first occurrence until the last occurrence is not more than 12 months.

In practical terms, the combined effect of clauses 116 (3) and (4) and 117(1)(d) of the Local Government (General) Regulation 2005, when read in conjunction with sections 46(1)(b)(iii) and 47 of the Local Government Act 1993, is to authorise Council to grant, in its discretion, a permit to enable a person to do, without the need for public notification, etc, one or more of the things specified in those clauses, namely:

- to transport building materials and equipment required in relation to building work that is to be, or is being, carried out on land adjoining the community land,
- to remove waste that is consequential on such work,
- to transport building materials and equipment required in relation to building work that is to be, or is being, carried out on land adjoining the community land,
- to remove waste that is consequential on such work,
- to use or occupy community land for any of the above mentioned short term purposes subject to the above limitations.

Occupation of community land otherwise than by lease or licence is prohibited.

Activities for which Working on or Access to Reserves Permit may be considered:

- Works associated with the provision of public utilities and works associated with or ancillary to public utilities
- Minor works associated with the provision of pipes, conduits or other connections under the surface of the ground for the connection of premises adjoining the community land to a facility of Council or other public utility provider that is situated on the community land
- The establishment of a 'worksite' arising from activities associated with the delivery and or removal of materials or waste to land adjoining community land where there is no other reasonable route of access and the delivery and or removal of equipment to land adjoining community land where there is no other reasonable route of access

No other activity will be considered under this permit.

For road openings refer to Council's "Road Opening Permit" application.

For works associated with events organised through a "Reserves Booking" access and works on reserves shall be undertaken in accordance with the Reserves Booking application and conditions of consent.

For any additional enquiry relating to activities on a Reserve or Sportsfield contact Council on 1300 434 434.

PRE-APPROVAL

1. Applications must be made as per the specified application form.
2. If a condition of consent applicable to land adjoining community land excludes vehicular access over community land, your application, if associated with this development, will not be considered.
3. Applicants are advised to allow 10 working days to process applications.
4. A pre-occupation/access inspection will be undertaken to observe and record the pre-occupation/access condition of the community land over which occupation/access has been requested.
5. For works associated with provision of public utilities and works associated with or ancillary to public utilities, all applications shall contain a dilapidation report prepared by the applicant along with a remediation plan to restore the site to pre-occupancy condition including surface levels and existing park and sportsground infrastructure interfered by works.

POST APPROVAL

6. Applications will attract an administrative fee as advertised in Council's Fees and Charges along with a bond commensurate with cost to restore community land to pre-access state in the event of damage arising from access activities. Bond will be estimated based on proposed access activities i.e. 10 tonne truck delivering materials will attract a higher bond than private vehicle driven by applicant picking up or removing items from land adjoining community land.
7. Prior to the commencement of any works, the applicant shall ascertain from the appropriate authorities the position, extent and depth of all services that may be encountered or interfered with during works. The applicant at no cost to Council shall take every precaution to protect existing services; whether encountered within or adjacent to the limits of proposed works. Dial before you dig is mandatory and the applicant is required to comply with the conditions set out on any DBYD notification.
8. That all work completed will be done to the required standard of applicable legislation (in particular Work Health and Safety Act 2011 and Work Health and Safety Regulations 2011), codes of practice, industry standards and manufacturers specification.
9. Where "high risk construction work" as defined in the Work Health and Safety Regulation 2011 is expected to be undertaken, that "safe work method statement(s)" and site specific risk assessment reports be submitted to Council before commencing works.
10. Applicants must ensure safe pedestrian access is maintained and controlled for duration of approved access and any persons engaged in activities on community land in proximity to the path of access at the time of access are to be notified of access activities and proposed access pathway prior to any vehicular movements.
11. A traffic management plan and traffic control devices are to be provided as required in accordance with AS1742.3-2009 and RMS Field Guides.
12. Erosion and pollution control measures will be in place and fully maintained throughout the duration of the work.
13. At close of each days activity, the work site must be left in a safe condition.
14. The permit holder shall provide adequate safety barriers and warning signs, and where excavation is open overnight the applicant is to provide and maintain construction fencing to 1.8m.
15. All vehicles used during access must be RMS registered and operated by an appropriately licensed operator.
16. Applications will be assessed to determine public liability coverage requirements. Any contractors engaged in Reserves Vehicular Access activities will be required to demonstrate public liability cover to a minimum of \$10,000,000. Council may require higher levels of cover for high risk activities.
17. If during approved occupation, Council receives complaints or is required to rectify any unsafe condition or practice associated with the application, the costs will be recouped from the bond and applicant as required .
18. A post-access inspection will be undertaken to determine condition of community land. Should Council be required to rectify or restore the condition of community land associated with the access application, the costs will be recouped from the bond.
19. Approval is valid for 28 days only and is restricted to the hours of 7.00am to 5.00pm Monday through Friday unless otherwise by agreement with Council.
20. Approval is non-transferable between parties and is for single use only. Additional access will require separate approval.
21. Occupation and access over Council's reserves is not permitted on weekends or public holidays.
22. Noncompliance with conditions of approval or any activity contravening the Local Government Act 1993, the Local Government (General) Regulation 2005 or any other relevantly applicable legislation (including but not limited to the Work Health and Safety Act 2011 and Work Health and Safety Regulations 2011) may be subject to regulatory/enforcement action (including penalty).
23. In some instances the nature of the request may require the inclusion of special conditions in addition to the standard conditions of access.
