

A message from the Mayor

It's incredible to see how far waste technology has come and we're thrilled to announce a new high-tech waste collection service will be rolled out across the Northern Beaches from mid next year.

This will mean a highly improved level of service for all residents, some great environmental outcomes and cost savings we can pass on to our ratepayers.

You'll see a fleet of brand new trucks fitted with the latest technology and safety features. The trucks will also have an enclosed loading hopper to prevent plastic or paper escaping and they are even fuelled by recycled plastic bricks.

Best of all, along with our new waste processing contract, we'll be able to divert 70 percent of waste from landfill, a huge 40 percent increase on current rates. Stay tuned, we'll have more information for residents when we get closer to rolling out the new service.

The future of District Park at North Manly was secured this week, with Council's decision meaning it will remain in public ownership with an 18-hole golf course and an enhanced multi-sports facility for the whole community to enjoy, along with additional community benefits.

We resolved to negotiate with the top-ranked tenderer, thus freeing up some of the existing clubs to be able to now be at the table in discussions to ensure the best possible outcome. These discussions were not previously possible as the clubs were parties to the tender process.

All along, we've all wanted the same thing - an upgraded multi-sports facility that is expertly run and enjoyed by a range of sports users, meeting our community's growing demands for better sports facilities.

Finally, the Manly Arts Festival marks an incredible 25 year milestone this year and the program is packed with great art, music and events. It launched yesterday and runs until 23 September, so be sure to pick up or download a program so you don't miss out.

Have a great weekend.
